Mining in the Pittsburgh Seam - McKeesport, PA, Quadrangle

Legend:
- Mine workings
- Underground mine workings
- Coal seams
- Unmined coal blocks

This mapping is a reasonable, but not exact, facsimile of the distribution of underground mine workings. Mine map outlines were compiled from a variety of original and secondary sources of varying accuracy. Where the absolute accuracy of specific barrier outlines, mine outlines, and unmined coal blocks may not easily be established, it may be considered to typically range from ±0.1 miles. Some features have been generalized. The boundaries of unmined coal blocks within mines mapped only if their total area was greater than about 10 acres.
